GREEN GATE GARDEN

BENNETTSVILLE, SOUTH CAROLINA

- 1 9 2 9 -

Princess Beatrice on the right with Tinae, tall and small flowered in the distance. On the left Cecile Minturn, Flavescens, Albert Victor, Queen of May, Viola, and more Tinae.

It is with pleasure we announce to our customers and friends - and those we hope to make our friends - the many lovely things we have to offer for this year. Fifty of these we are listing for the first time.

Six or eight different kinds of Dwarf Iris bought in '28 complete a list of thirteen varieties of this type we can now offer for sale. They are so pretty for an early Spring carpet and as borders for the Daffodils. The new Intermediate, Yellow Hammer, and the queer green-y brown Zwanenburg are recent purchases and should bloom nicely for us in April. Spurias and Monspurs had long haunted our dreams, so the last of the vegetable garden had to give way to these. Some more Pseudacorus around the garden spigot; a bit more Tectorum in a sunny spot; three new Sibiricas - light blue Butterfly, medium blue Sunnybrook, and dark blue Kingfisher. All these we have managed for this season.

You will like to see Santa Barbara, among the finest of the lavender-blues; also Souv. de Loetitia Michaud, a wonderful lobelia blue and a vigorous grower; Sensation, a distinctly cornflower blue; and Gabriel, bright steel and violet blue. You will not like to miss the black velvet of Louis Bel, or the deep rich violet of Germaine Perthuis, the brilliant light rose of Mrs. Marian Cran, or Candlelight's pleasing glow.

We have tried to find yellows because our collection was short in these and because they are needed in a well balanced garden for light and for contrast. We have added Yellow Moon, Amber, Flut-terby, and Primrose; lots of Shekinah, Chalice, more Gold Imperial, and much more Dawn, Darius, Aurea, Sherwin Wright, and Flaves-cens; also some other bi-colors of Iris King type - Marsh Marigold, Kathryn Fryer, Flammenschwert, and Citronella, as well as quantities of the old and tried Princess Victoria Louise, Loreley, Fro and Mithras.

Our collection has grown in the last twelve months to TWO HUNDRED AND FIFTY VARIETIES AND FIFTEEN THOUSAND PLANTS. Of the nine outstanding Iris in the recent Iris Symposium rated by ten or more jurors at 90 or above, we have eight! Of the one hundred and seventy five rated, in same way, at eighty and above, we have one hundred and eleven! Can you not believe we await the Iris season of 1929 with great expectations and a great impatience.

We use the greatest care in digging and shipping our Iris and each root is carefully selected, correctly labelled, and true to name. We sell only root divisions and our prices are as low as the quality of our stock will admit. We have found out by experience that it is better both to buy and sell a good Iris root at a fair price than an inferior one at a bargain rate. Prices effective after flowering season is over, June 1st. Roots will be shipped by express. If wanted by Parcel Post add five per cent.

--Gabrielle Drake McColl.

Relative time of blooming is indicated by E for early, M for mid-season, and L for late; comparative height is indicated by t for tall, m for medium, and l for low. Numerals are the garden rating as given in the 1928 Symposium of the American Iris Society. Those marked with * may be had three for the price of two.

82	Afterglow L.t: buff, pink and yellow, sunset coloring	\$.25
76	Albert Victor E.t: blue and lavender, fine Pallida foliage	.25
87	Alcazar M.t: pink violet and purple, exceedingly handsome	.35*

Green Gate Garden

105 JENNINGS STREET
BENNETTSVILLE, S. C.

You are cordially invited to visit the
garden while the Iris are at their best
April twenty-first to May twelfth
[- 1929 -]

These are intermediate in size and in season of bloom. They flower after the Dwarf and just before the Tall Bearded and with Tulips and late Narcissus make lovely the April garden. Price 25 cts. each, 10 of one kind \$2.00 except where noted.

- 75 Amas (Species): blue and violet, very large flowers, handsome
Blue Boy: striking because of the bluish-purple color, blue beard
- 77 Bluet; one of bluest varieties, good shape and substance
Charmant; white and pale blue, exquisite markings, subtle beauty
- 83 Crimson King; rich deep purple, rather tall for intermediate, fine
- 81 Empress; creamy white washed yellow, vigorous, large flowered
- 77 Etta; creamy yellow flower, very effective in the garden
Gerda; large yellow bloom of good value in the garden
Helge; yellow and pearl coloring, small bloom but very lovely
- 79 Ingeborg; a nice white, pretty with pink Tulips
Kochii; dark royal purple, rich in massed planting
Lurida; mahogany red and carries well
Nothung; late Intermediate, pretty olive coloring
- 74 Purple King; slightly darker than Kochii, free flowering
- 60 Rose Unique: brilliant deep pink and very showy
- 76 Sherwin Wright: pure golden yellow, fine for low mass, cut flowers
- 92 Soledad: A fine early yellow of vigorous growth, 50 cts.
Violet Queen: blue and black violet, richly colored
- 80 Yellow Hammer: large bright amber yellow, sweetly scented, .50
- 74 Zua: white tinged lilac, creped and crinkled texture, 50 cts.
- 82 Zwannenburg: curiously blended cream, buff and olive, 50 cts.

DWARF BEARDED IRIS (PUMILA)

Very early; flowering with the Daffodils, and lovely for border or rock garden. They multiply rapidly. 15 cts. each, 10 of one kind \$1.25

- 81 Atroviolacea: deep purple and very satisfactory as a Dwarf Iris
Aurea Maculata: deep yellow with brown markings, earliest of all
Azurea - Coerulea: sky blue, effect unsurpassed
Bride: the new pure white with primrose beard
Cyanea: deep royal purple, rich and effective, glowing
- 76 Eburna: a soft delicate creamy yellow
- 77 Excelsa: a pure yellow and very beautiful flower
Fairy: makes a pale blue carpet when massed
- 76 Lutescens Statellae; small early creamy white, graceful stem
Lutea; another creamy yellow, very fine
Orange Queen; clear rich yellow, thick little tufts of foliage
Sambo: a dark blue Dwarf and exceedingly good
- 77 Schneecuppe; white and one of best of its class

BEARDLESS IRIS

8

This group includes Siberian and Orientalis varieties as well as hybrids of these and other species. They do well in moist situations where the beardless kinds would not thrive; are most decorative in foliage and flower and exceptionally graceful and beautiful as cut flowers. They should be transplanted when dormant in late Fall, Winter or early Spring and the roots should not dry out while moving. Plant three inches deep in soil enriched with well rotted ccm-post. A large stock enables us to offer a very low price on Emperor one of best.

	Each	Doz
Blue King: medium height, rich blue purple	.35	\$2.50
Butterfly: beautiful light blue flowers 3 for \$2.00	.75	
Emperor: large deep violet blue, extra good value	.35	2.50
George Wallace: S. light blue-purple, F. deeper	.35	2.50
Melpomene: a good deep blue, slender foliage	.35	2.50
Orientalis: rich deep purple, good altogether	.35	2.50
Orientalis Orange Queen: orange color of above	.35	2.50
Perry's Blue: wonderful shade of sky blue 3 for 2.00	.75	
Snow Queen: snowy white petals, golden blotch	.35	2.50
Sunnybrook: delightful shade medium blue 3 for 1.25	.50	
Dorothea K. Williamson: large velvety blue-purple 3 for \$2	.75	
Lord Wolsey: A monspur of rich deep blue	.50	
Shelford Giant: tall Spuria creamy yellow, orange throat	2.00	
PSEUDACORUS: light yellow water Iris-3 ft. fine for banks of streams or marshes	.35	2.50
TECTORUM: Roof Iris from Japan, grey-blue flowers spotted, with fringed white crest	.50	

SPANISH IRIS

Graceful slender stem, narrow foliage, loose but beautiful flowers particularly lovely for cutting. These Iris are bulbous, multiply rapidly, and should be divided every three years after the foliage dies, then dried out and re-planted in early Fall, fertilizing with Bone Meal at this time. \$1.00 per dozen.

Cajanus: canary yellow, orange yellow blotch on Falls

King of the Whites: pure white, small orange blotch

Rembrandt: deep blue with large orange yellow blotch

Seeghers: S. pale blue, F. pale sulphur and deep yellow, very early

HEMEROCALLIS (Yellow Day Lily)

Hardy and easy to grow; do well in shade. The earlier flowering sorts are charming accompaniments to the Iris pageant while the later bloomers enrich the summer garden. Dates of blooming are given.

Shipment Fall and Winter or early Spring.

Dr. Regel: rich orange yellow flowers, 18. in. April	\$2.50 dozen
Florham: rich golden yellow, large flowers, 3 ft. May	3.50 dozen
Flava (Lemon Lily): sweet scented clear yellow May	3.00 dozen
Farr's Citrina Hybrids: summer blooming lilies, very tall and showy lemon yellow trumpet flowers. A large stock makes bargain price possible.	1.50 dozen

GEM Collection: 100 Iris in ten varieties, 10 of each as follows:

Pallida Dalmatica, Fro, Celeste, Mme. Chereau, Lohengrin, Flaves-cens, Cecile Minturn, Her Majesty, Sherwin Wright, Rose Unique \$15.00

SAPPHIRE Collection: One each - Violaacea, Grandiflora, Mandral-iscae, Mary Orth, Corrida, James Boyd, Drake, Baronet, Juniata, Blue Jay, Albert Victor \$2.50

RUBY Collection: One each, Queen of May, Troost, Aurora, Caprice, Roseway, Wyomissing, Isoline, Standard Bearer, Cecile Minturn, Rhein Nixe \$2.50

AMETHYST Collection: One each, Purple King, Othello, Tamerlane, Nine Wells, Nibelungen, Prosper Laugier, Jacquesiana, Alcazar, Lent A. Williamson, Pumila Cyanea \$2.50

TOPAZ Collection: One each, Princess Victoria Louise, Dawn, Darius, Quaker Lady, Aurea, Iris King, Afterglow, Paxatawny, Mother of Pearl, Dalmarius \$2.50

OPAL Collection: One each, Leverrier, Mons. Oliver Perthuis, Ambassadeur, Chalice, Valery Mayet, Georgia, Crusader, Cluny, Viking, Mlle. Schwartz \$5.00

MIXED IRIS - Unlabelled - one hundred for \$5.00

SEEDLINGS - Green Gate Garden Seedlings - Selected - 50 for \$5.00

WHITE, PURPLE FLAGS - separate or mixed - .60 doz., 100 for \$4.50

The best time to divide and transplant the Bearded Iris is after the blooming season, with us in June and July, though these Iris can be safely planted at any time. Plant them in good garden soil, in well drained and sunny location, or at least where they will have some direct sun each day. Some varieties such as Alcazar, Quaker Lady, Wyomissing, Lohengrin, Glory of Hillegom, Navajo, Nine Wells Fairy, Pauline (Child's) Queen Alexandra, do quite well in considerable shade.

Fertilize liberally with Bone Meal at time of planting and add lime to soil if it is acid and sour. Lime is excellent for the Iris beds at all times.

Bearded Iris planted too deep will not bloom! Let the top of the rhizome show the least bit above ground and the small roots go deep. Keep dead leaves and litter away, letting the rhizome catch the blaze of the summer sun.

Some varieties are temperamental and refuse to bloom the first season after moving; the chances are better for June and July transplanting.

Varieties I must have:

While we advise June and July buying and planting of Bearded Iris, the rhizomes are not so large as later in August and September also there is great variation in the size of rhizomes of different varieties. Susan Bliss, Lady Byng, and Zwannenburg for instance are very small while Pallida, Lent A. Wm'son and Crusader are very large. We ship Iris the year round.

Special Prices to Garden Clubs and on Quantity Order.
